

ANUSHA BHARATI

PROFESSIONAL SUMMARY

Software Engineer with 4 years of expertise in crafting scalable applications using Angular, TypeScript, Python, JavaScript, ASP.NET, and MS-SQL. Adept at optimising user experience, application performance, and collaborating seamlessly with cross-functional teams to deliver high-caliber software solutions. Excels in translating intricate business requirements into technical specifications while consistently achieving project goals and elevating customer satisfaction. A champion of innovative thinking, continually challenging boundaries and striving for excellence in every endeavour. Committed to pushing the limits of software engineering through a relentless pursuit of knowledge and cutting-edge practices.

WORK HISTORY

Software Developer, 12/2022 - Current

Eve Networks, Stonehouse, UK

- Spearheaded development of cutting-edge billing portal, accounting application designed to automate and streamline invoices, fixed charges and tariffs processing.
- Revamped billing portal by refactoring legacy code, leveraging modern design and optimisation techniques for elevated user experience by enhancing product value, delivering intuitive, highly responsive portal tailored to target audience needs and complex business logic requirements.
- Proficient in full-stack web development, employing Angular 14, GraphQL, ASP.NET, HTML, CSS, and Bootstrap for creating visually appealing and highly functional user interfaces.
- Developed robust APIs and implemented backend functionalities using C#, GraphQL, ASP.NET Entity Framework, and SQL, ensuring seamless data integration and application performance.
- Maintained system stability by providing prompt production support and resolving critical bugs.
- Utilised Git and Azure DevOps for version control and continuous integration/continuous deployment (CI/CD), enabling efficient collaboration and streamlined software delivery processes.
- Adhered to industry-standard software development methodologies, including Agile principles, to ensure iterative and incremental project delivery, fostering adaptability and responsiveness to changing requirements.
- Architected and maintained infrastructure for applications on Azure DevOps, building and automating CI/CD pipelines for

Cheltenham, UK

SKILLS

Skills:

- Python, C#, HTML, CSS, TypeScript, SQL, JavaScript
 - Angular 14, Apollo GraphQL, ASP.NET, Django, Pandas (software), Numpy
 - Azure Devops, Git
 - Requirement Analysis, Data analysis, Business analysis, Team Management, Agile development methodologies, CI/CD
 - Financial and supply chain management, Enterprise performance management, Billing portal, University data management
- Strengths:
- Ownership, Teamwork, Think big, Leadership, Adaptability, Team player, Attention to detail, Go-getter

EDUCATION

Master of Science, Computer Science, 2021 - 2022

University of Bath - Bath

Bachelor of Technology, Electronics Engineering, 2014 - 2018

SNDT Women's University - India

CERTIFICATIONS AND LICENSES

- A beginner's guide to Django - Udemy

multiple applications, enabling rapid deployment and efficient management of software delivery lifecycle.

Data Analyst (Part-time), 11/2021 - 10/2022

University of Bath, Bath

- Functioned as data analyst for comprehensive University App, responsible for managing and maintaining over 10 course structures of University of Bath.
- Key responsibilities encompassed conducting intricate data analyses, executing meticulous quality assurance testing, and ensuring accurate data entry for all courses and academic units offered by University.

Application Development Analyst, 12/2020 - 09/2021

Accenture, India

- Excelled in conducting comprehensive business analyses, requirement assessments, and overseeing build management, consistently delivering optimal solutions that exceeded client expectations. These outstanding contributions led to prestigious recognition of being nominated and awarded FY20 Q4 Accenture Celebrates Excellence Award in Client & Customer Category.
- Exhibited exceptional leadership and teamwork by mentoring and managing junior team members, fostering their professional growth while taking end-to-end ownership of projects in new role, ensuring seamless execution and successful delivery.

Application Development Associate, 11/2018 - 12/2020

Accenture, India

- Excelled in full-stack web development using PeopleSoft, People Code, and SQL, delivering robust front-end and back-end solutions in less than 3 months.
- Conducted comprehensive testing, including unit, performance, and user acceptance, ensuring software quality and seamless build migrations.
- Leveraged expertise in Oracle PeopleSoft FSCM modules (Accounts Payable, Receivable, Purchase Order, General Ledger) to streamline financial processes.
- Provided optimal solutions through meticulous analysis, user-centric design, and intuitive application functionalities.
- Maintained system stability by providing prompt production support and resolving critical bugs.

- Cleared exam for Hackerrank SQL Basic, Intermediate and Advanced levels.
- Cleared exam for Hackerrank Problem solving Basic level.
- Artificial Intelligence under GUVI Geek Networks, IITM Research Park.
- Oracle Cloud Infrastructure Foundations 2021 Certified Associate under Oracle.
- Python 2021 Complete Python Bootcamp From Zero to Hero in Python.
- C and C++ issued by NIIT Limited
